Claim 36 (new) A casino gaming machine comprising:

B1  
a base gaming device to provide a base game;

a wager input device to allow a player to wager on the  
base game;

a lottery gaming device to provide a lottery drawing;

a display device to display the lottery drawing;

control circuitry to activate the lottery gaming device  
upon the occurrence of a predetermined event so as to  
allow a player to play in the lottery drawing;

an indicating device to indicate a player is entitled to  
play in the lottery drawing upon the occurrence of the  
predetermined event; and

a player input device in electronic data communication  
with the lottery gaming device to enable the player to  
play in the lottery drawing.

Claim 37 (new) The casino gaming machine according to claim 36 wherein the lottery gaming device provides a prerecorded lottery drawing and the display device displays the prerecorded lottery drawing.

Claim 38 (new) The casino gaming machine according to claim 36 wherein the lottery gaming device provides a graphically generated lottery drawing and the display device displays the graphically generated lottery drawing.

31  
Claim 39 (new) The casino gaming machine according to claim 36 wherein the lottery gaming device comprises inputs for receiving electrical signals that define a live lottery drawing, and the display device displays the live lottery drawing.

Claim 40 (new) The casino gaming machine according to claim 36 wherein the control circuitry comprises programmable circuitry, the casino gaming machine further comprising means for programming the programmable circuitry with data that defines the predetermined event.

Claim 41 (new) The casino gaming machine according to claim 36 wherein the predetermined event is a predetermined coin-in

threshold which a player must meet in order to play in the lottery drawing.

Claim 42 (new) The casino gaming machine according to claim 41 further comprising an electronic player tracking system that records data pertaining to cumulative coin-in wagered by a player and compares the recorded data to the predetermined coin-in threshold in order to determine if the player is eligible to play in the lottery drawing.

Claim 43 (new) The casino gaming machine according to claim 36 wherein the predetermined event is a predetermined amount of time for which the player must play the base game in order to be eligible to play in the lottery drawing.

Claim 44 (new) The casino gaming machine according to claim 43 further comprising an electronic player tracking system that continuously records the amount of time for which the player has played the base game and compares the recorded amount of time to the predetermined amount of time in order to determine if the player is eligible to play in the lottery drawing.

Claim 45 (new) A casino gaming machine comprising:

a base gaming device to provide a base game;

a base game display device to display the base game;

a lottery gaming device integral with the casino gaming machine and having a lottery drawing display device to display a lottery drawing;

input circuitry for receiving electrical signals that represent a lottery drawing;

control circuitry to activate the lottery gaming device upon the occurrence of a predetermined event so as to allow a player to play in the lottery drawing;

an indicating device to indicate a player is entitled to play in the lottery drawing upon the occurrence of the predetermined event; and

a player input device in electronic data communication with the lottery gaming device to enable the player to play in the lottery drawing.
